

SOCIETY and WOMAN'S WORK

Mr. and Mrs. William Herbert McClain entertained with a handsomely appointed New Year's dinner at their home on Girard Avenue yesterday. Incidentally, the affair celebrated the fourth anniversary of their marriage.

The dining room was attractive in festoons of holly and the table held as a centerpiece a cluster of crimson rose buds banked with ferns.

Covers were laid for Mr. and Mrs. T. Marshall Cunningham, Mr. and Mrs. Ray H. Martin, Mr. and Mrs. Earle R. Wilson, Mr. W. W. McClain and Mr. and Mrs. William Herbert McClain.

Mr. and Mrs. Charles E. Gompf, Delaware Avenue, entertained delightfully at cards Tuesday evening.

Five tables of "five hundred" were played, and at the conclusion of the card season, a delicious luncheon was served.

Holly and Christmas evergreens about the parlors were suggestive of the Yuletide.

Members of the Five Hundred Club and Miss Stella Smith were guests.

Just to prove the fact that the sterner sex are magnified so far as ability is concerned, Messrs. Charles L. Allen, Frank S. Keiler, Ralph T. Lewis, Charles Merkle, Charles N. Phillips, and Howard Wetmore entertained with one of the handsomely appointed dinners of the season last evening.

The dining room of the Wetmore home on Delaware Avenue was a page torn from the annals of some New Year's of the long ago, festooned with holly and Christmas bells and lighted by the rays of many holly red candles. The table was arranged with clusters of mistletoe, a huge candelabra with Yuletide candles being the centerpiece.

Messrs. Allen and Wetmore presided in the culinary department while Messrs. Phillips, Lewis, Merkle and Keiler served. Covers were laid for Messdames Allen, Keiler, Merkle and Wetmore, Misses Ada Bowen, Edith Wolfe and Bernice Christian, Mr. and Mrs. Arthur C. Bachman and Professor Frederick Berryman.

Suitable resolutions for the New Year were found on tiny red hearts at each cover.

Following dinner Master Edmund Keiler distributed gifts from a Christmas tree conspicuously placed in the library.

Miss Jessie Gregory, Center street, west, was hostess at an informal bridge party New Year's afternoon. Two tables were played.

Honoring their daughter, Miss Hope Fisher, Mrs. Charles C. Fisher will entertain quite informally at bridge Saturday afternoon.

At a large card party given by Mr. and Mrs. Fred Haberman, Delaware Avenue this evening, Dr. and Mrs. Chester Carlisle of Willard, New York, and Mrs. William R. Bingham of Mr. Clemens, Michigan will be the honored guests. Friday afternoon Mrs. Haberman entertains with a reception for Mrs. Carlisle and Mrs. Bingham.

Mrs. E. E. Taylor of North Main street was the guest of honor at a birthday surprise given by her husband, Mr. E. F. Taylor, Tuesday evening.

The guests invaded the home during the absence of the hostess who had been invited by Mr. Taylor to attend the theatre.

Music and a luncheon were among the delightful features of the occasion. The guest of honor was nicely remembered by her friends. The midnight hour found the company wishing Mrs. Taylor many returns of the day.

These were present: Mr. and Mrs. J. B. Lucien, Mr. and Mrs. Nelson Hatch, Mr. and Mrs. John Ranby, Mr. and Mrs. J. Lee Shaw, Mr. and Mrs. E. E. Parish, Mr. and Mrs. J. A. Wideman, Mr. and Mrs. Fred Schurle, Mr. and Mrs. F. C. Corey, Mr. and Mrs. Will Bowers, Mr. and Mrs. Marion Smith, Mr. and Mrs. H. C. Anderson, Mr. and Mrs. H. P. Connor, Mrs. S. J. Ploch, Mrs. Rebecca Miller, Mrs. Arthur Roof, Mrs. Princess Harvey, Mrs. Emma Moore, Mrs. Bertha Moore, Mrs. J. A. Butler, Mrs. J. W. Ush, Miss Gladys Corey, Messrs. Lloyd Lucien, Charles Bowers, Ernest Wideman, Ralph Bowers, Vernon Hatch and Grim.

Mr. Charles Clay Sloan and Miss Lena Victoria Pence were quietly married at the Wesley M. E. parsonage by Rev. C. E. Rowley, at 7 o'clock Tuesday evening. The only witnesses of the ceremony were Mr. and Mrs. M. A. Gee of Lander street.

Mr. Sloan is an employe at the Erie transfer house and has a host of friends in the city. The bride is a lady of pleasing personality. After a short trip to the city, Mrs. Sloan will be at home to their friends on Monroe street.

Rev. and Mrs. C. E. Baerle delightfully entertained the members of the official board, together with their wives, of the German M. E. church, at a six o'clock dinner at the parsonage on South Prospect street, Tuesday night. Covers were laid for thirty-eight.

At the close of the four course dinner, an informal program of toasts was enjoyed. The pleasures of the evening were concluded with music and social intercourse. Miss Elizabeth Schroeder contributed several instrumental piano selections.

At the residence of Rev. W. A. Settlage, pastor of the Reformed church, on South Prospect street, Monday evening at 7:30 o'clock, Mrs. Cora J. Zieg and James F. Thatcher were united in marriage.

The bride and groom are well known young people of this city, both of whom have a wide circle of friends who join in extending hearty congratulations. Mr. Thatcher is employed in the boiler shop at the Huber shops. They will make their future home on North Greenwood street.

One of the most charming of the several weddings celebrated on the New Year was the ceremony which united Mr. Truman C. Lewis and Miss Mary Benzler at two o'clock Tuesday afternoon.

The Benzler home at No. 415 South Prospect street, had been made a bower of beauty with holiday greenery and added greatly to the charm of the generous hospitality dispensed within.

The ceremony was performed by Rev. E. F. W. Stelthorn, pastor of the Evangelical Lutheran church, in the presence of a large number of intimate friends and relatives of the contracting couple.

Following the ceremony an elaborate four course dinner was served. Mr. and Mrs. Lewis will reside at the Benzler home. The groom is a well known and popular railroad man, for ten years having been employed as telegraph operator at some of the more important points along the Cincinnati division of the Erie. The bride is the daughter of Mr. Jacob Benzler, and has a host of friends who extend their sincerest felicitations on this happy event.

Those present were: John L. Lewis and wife, Harpster; Lyman P. Lewis and wife, Columbus; Mrs. W. C. Keller, Upper Sandusky; Mrs. Thomas Clinger, Upper Sandusky; Mr. Samuel Bridge, Akron; Mrs. Lydia Augustine, Waldo; Mrs. Geo. Schweinfurth, Mrs. Eliza Diebolt, Mr. and Mrs. John Romoser; Mr. and Mrs. Samuel Romoser and daughter, Mr. and Mrs. M. English and daughter, Mr. and Mrs. B. Landon, Mr. and Mrs. Albert Benzler; Mr. and Mrs. P. W. Witzel and son, Mr. and Mrs. John Bridge, Mr. and Mrs. J. Benzler, Mr. and Mrs. George L. Rhoads, Mr. and Mrs. P. Gill, Mrs. Jno. Berringer, Mrs. Charles Berringer, Mr. and Mrs. Geo. Miller and son, Mrs. J. H. Smeltzer, Mr. and Mrs. Cath. Aljendinger, Mrs. Chas. Romoser, Mrs. Bertha Blum, Miss Edna Schweinfurth, Princess Rhoads, Estella Diebolt, Clara Kowalko, Flora Kowalko, Alice Sneeckenberger, Florence Sneeckenberger, Pearl Cheney, Ethel Crouse, Lorraine Gill Messers, George Schweinfurth, Charles Smeltzer, Mandes Britsch and Leon Gill.

The members of the Delta Alpha Epsilon fraternity of the high school entertained in a delightful manner last evening with a dance in the Tally Wag hall to the music of Dowler's orchestra a program of twenty numbers was danced. About thirty-five couples attended the affair.

The fraternity will entertain with a dance and banquet on February 8 which date is the anniversary of the founding of the society.

Miss Anna List, head nurse at the Central Emergency Hospital, pleasantly entertained yesterday with a dinner, at which the courses of the hospital and a number of friends were the guests. A sumptuous repast was served by the hostess.

The Fleur de la city of Prospect, entertained with a ball in the town hall Tuesday night. A company numbering about fifty enjoyed the affair which was one of the most delightful social events of the season in Prospect circles.

Mrs. Charles Gompf of Delaware Avenue was hostess to the members of the Carl club, Tuesday night. There were five tables of "500"

and the evening was passed in a delightful interesting manner.

Miss Emma Cull of Oak street pleasantly entertained a few friends last evening with a charming chaffing dish party. During the evening a guessing contest afforded much pleasure for those present. The first prize was won by Frank Stanley while the consolation prize was awarded to Russell Haley of Portland, Indiana.

At the residence of Rev. A. Snider in Galien at 9:30 o'clock Tuesday evening Mr. Ira Lee of Scott Township and Miss Pearl Timson of Caledonia were united in marriage. The couple drove to Galien and after the ceremony started home. The country roads were so heavy that they were compelled after getting into a deep chuck hole to stop at a near farm house and return home the next day.

The bride is the daughter of Charles Timson and was formerly employed as clerk in the Iden and Lyman store at Caledonia. The groom is a prominent young farmer residing two miles north of Caledonia. Mr. and Mrs. Lee will reside at the groom's home. The many friends of the popular young couple extend hearty congratulations.

Mr. and Mrs. John Hanby of Wood street, entertained a small company of friends at dinner New Year's day. The guests of honor were Mr. and Mrs. H. Weston of East Church street.

IN EDWARD VII'S KITCHEN.

Kid-Gloved Chef Sends Dishes Along Mirror-Lined Corridors.

A system unlike that to be found anywhere else prevails in the kitchen when the meals of King Edward are prepared.

The royal chef is a Frenchman, paid a liberal salary, and with free lodging near the royal palace. It is his business to superintend only the king's lunch and dinner. He has nothing whatever to do with the breakfast.

When the dinner is to be served the scene in the kitchen is one of perfect order and readiness. The cold dishes which were prepared during the morning stand on the table, surrounded if necessary by ice; the birds and other such delicacies which are to be served, cooked to a second, are ready to hand.

Now the hours d'oeuvres are sent forward to an anteroom, which in the case of Buckingham palace is nearly 300 yards from the kitchen. The assistants are clad in spotless linen, they all work by the clock, and each dish is commenced and finished to within a minute of the appointed time.

The chef walks around and superintends, but his assistants are so well drilled that he seldom needs to give an order, though here and there he offers a suggestion for the further perfection of some detail. During this time he is himself thinking out the final details of the masterpiece of the table, which he takes particularly under his own care.

Just outside the door of the dining hall there is an apartment where the final touches are given to the delicate and costly preparations. At Buckingham palace it contains a hot table, upon which the dishes rest in readiness for their distribution to the table attendants.

The man who wields authority here is clad in immaculate evening dress and wears white gloves, and in a voice which is rarely raised above a whisper he gives the minutest directions as to what is to be done with each particular item on the menu from the anteroom when it leaves the anteroom and passes finally from his care. Relays of men and women bearers convey all these dishes from the kitchen to the anteroom.

The passages from the kitchen are long, with awkward corners in them here and there, and in order to prevent collisions in the hurry of the work an ingenious arrangement of mirrors has been effected at these corners, so that the bearers may see whether the road is clear for them.—What to Eat.

'Twas But a Dream.

Jim Wray, the Harvard rowing coach, said to a prophet of evil before he sailed with the Harvard crew for England: "I take no stock in your words. Your words remind me of those of a certain married man once heard. This married man, coming home quietly one evening, heard in the drawing-room the voices of his wife and mother-in-law in earnest conversation. He tiptoed to the door and listened intently. He heard his mother-in-law say: 'No, darling, I really must go to-morrow. I do not believe in mothers-in-law making long visits. A day or so once or twice a year is enough. And now let me tell you, dear, what a treasure I think you've got in Will. There are few husbands like him, and you must try your best not to spoil him. He is perfect as he is. But don't you think you are a little hasty and inconsiderate with him sometimes? You must be gentler and more accommodating and, above all, avoid every appearance of strictness. Men need a little latitude and you have no right to chide Will when he stays out till two or three in the morning, for you must remember that he is a man, not a child or a woman, and it is your duty to allow him three or four evenings a week—'

"Will stirred uneasily. He awoke. It all seemed so real, and yet, alas! it was but a dream."

The Self-Reliance of the American Boy

By MAX MITCHELL,
Secretary of Federated Jewish Societies.

HAT often leads to the severe criticism of the manners of the American boy is his undoubted self-reliance. He is so much more independent than the boy of any other country that at first contact the European observer may be shocked.

It is soon discovered, however, that the American boy's independence is an inevitable result of his training. From his infancy he is schooled in the lessons of self-reliance. He is permitted to have his own way about a multitude of things which no European boy ever is permitted to consider.

Independence and self-reliance constitute the keynote of American life in the mass, and in this respect "the boy is father to the man." American men are so much more enterprising, independent and optimistic, because the American youth is taught that there is no obstacle which push and pluck cannot overcome.

There is nothing ceremonious about the American boy. It does not appear that he is lacking in reverence for the venerable or in respect for his parents. Indeed, his parents are constantly encouraging him to look out for himself, to express individual preferences and free opinions and to face the world in the mental attitude of the heir to power.

The European boy is warned that there are so many things that he must regard as a superior and not subject to doubt or dispute. He is taught always the first lesson to learn obedience, and there are so many people all around him to whom he must be obedient that obedience becomes very natural.

I believe that this is the only real distinction between the American boy and the boy of other countries.

Yet on the whole the American boy could profit by more mental, moral and physical supervision and direction. The American youth between the ages of 14 and 21 who is compelled to go to work is neglected. There ought to be for him some system or scheme of education with diversion and relaxation.

He is left practically without any mental restraint or control or direction. He acquires the mental and moral habits of his workaday environment, and none of his time is devoted to increasing knowledge and strength.

Too many American boys are forced to endure this condition. We have compulsory day education, but that is for the boy who does not work. For the boy who does work we ought to have some system of combined education and recreation.

Max Mitchell

All Effects of Excessive Fruit Eating

By G. ELLIOT FLINT,
Author of "Power and Health Through Progressive Exercise."

The notion is widely prevalent that it is healthful to consume, particularly in summer, a large quantity of fresh fruits. If this be true it follows that, as most fruits contain more or less acid, to introduce much acid into the stomach favors both digestion and nutrition, and helps to keep the blood in its proper condition; for, on the excellence of digestion and assimilation, and on the state of the blood, depends health.

Let us test this theory with facts. Digestion, as everyone knows, begins in the mouth. There, after food has been masticated and moistened, any starch in it is attacked by ptyalin, the active principle of saliva, which changes the starch into maltose, a kind of sugar. But ptyalin, itself alkaline, will act only in an alkaline or a neutral medium. This fact has been established by the experiments of Dr. J. H. Kellogg, who found that in slightly acid solutions the action of ptyalin on starch was greatly retarded, while in solutions more strongly acid it was wholly arrested.

After the food has been swallowed and has entered the stomach the saliva continues to act on it for from half to three-quarters of an hour; then the gastric juice, the only acid contained in digestion, is secreted, and this inhibits further diastatic action.

The specific digesting substance in the stomach is pepsin, which converts the albuminoids or proteins of the food into a soluble and assimilable form known as peptone. Pepsin acts only in an acid medium which is supplied by the gastric juice; for in normal gastric juice hydrochloric acid is present in proportions varying from one to four per thousand.

Rennin, another substance secreted by the stomach, has the power of curdling milk. Acids also have this power. But while the curds from rennin are sweet and hold the earthy matters of milk, particularly the phosphate of lime, those formed from acids are sour and do not contain these substances. Acids prevent absolutely the action of rennin.

We may assume now that the food has been partially digested and has passed as a semi-fluid mass (chyme) into the upper part of the small intestine—the duodenum. There it is, attacked by a secretion from the pancreas called the pancreatic juice which consists of three digestive substances—namely, amyllopsin, trypsin and steapsin. The amyllopsin converts into maltose what starch has not already been converted by ptyalin. The trypsin changes what remains of the albumens into peptone, but with an activity far in excess of that of the gastric juice. The steapsin splits up and emulsifies the fats not before acted on, and thus makes possible their assimilation. These three elements again perform their functions only in alkaline or in neutral media.

The bile, a secretion from the liver, enters the digestive tract through the same opening as does the pancreatic juice, and aids the latter by uniting with the fatty acids in emulsifying the neutral fats. Acids inhibit its action also. The gastric juice and the bile have each considerable bactericidal powers. The liver, as well, disinfects and purifies the blood passing through it, and it is a storehouse for glycogen, which it does out to the tissues as required.

Lastly, in this brief summary of the digestive processes, we have to note the functions of the intestinal juice, a secretion powerfully alkaline. This neutralizes any acids which have by their presence checked the digesting power of the trypsin, thus enabling the latter to resume and complete its action.

So I maintain that, as the juicy fruits contain considerable amounts of free acid, their consumption and the consumption of overmuch meat and sugar, which are acid-making, should be limited—first, that they may not overburden the system with acid that must be neutralized before complete digestion can be effected, and, second, that they may not produce acid blood (unless the chyme has been completely neutralized), which condition, as we have seen, invites so many diseases. While fruits and nuts are well enough as relishes, they should never be used as staple articles of diet.

SELF-RIGHTING LIFE BOAT.

Craft Which Cannot Be Swamped by Filling with Water.

New York.—The self-righting, self-bailing boat herewith illustrated is one of a number used in the United States.

Keel Openings Are Bailing Device.

States life saving service. Possessing great strength and buoyancy, and being very difficult to capsize, its superiority over the ordinary lifeboat for long trips is at once evident.

In the floor of the boat, which is so placed as to be on a level with the water when manned, are several openings, each connecting by a metal tube with an opening in the bottom.

As water cannot rise above its own level, and as each tube is closed at the floor level by a valve which opens downward, no water can pass up into the boat, while any dashing in from above is at once shipped through the tubes. So quickly is this accomplished that a full boat can empty itself in about half a minute.

In order to procure the self-righting quality, each is furnished with a heavy iron keel and well provided with ballast.

The most dangerous force in this country is the fortune with no character behind it.

Dead, Anyway.

This was the way a native physician in India filled out a death certificate: "I am of a mind that he died (or lost his life) for want of foodings or on account of starvation. Maybe also for other things for comfortables, and most probably he died by drowning."

Daily Market Report

EAST BUFFALO.

East Buffalo, N. Y., Jan. 2.—Cattle—Receipts 50; active and steady. Veal calves—Receipts 200; market active and firm. Top veals 9.25 @ 9.50; cull to fair 5.75 @ 9. Sheep and lambs—Receipts 5,000; market active and steady. Choice lambs 7.75 @ 8; cull to fair 5.25 @ 7.65; yearlings 6 @ 6.75; wethers, 5.40 @ 5.75; ewes 5 @ 5.25; mixed sheep 5.25 @ 5.50; cull sheep 2.50 @ 4.25. Hogs—Receipts 5,950; market fairly active at 5 @ 10; lower; yorkers and pigs 6.45 @ 6.70; heavy and mixed grades 6.60 @ 6.65; roughs 5.50 @ 5.90; stags 1.25 @ 1.50.

Union Stock Yards, Ill., Jan. 2.—Cattle—Receipts 4,000; estimated for Thursday 10,000; market steady to the lower; prime beefs 6.10 @ 7.20; poor to medium 4.15 @ 5.80; stockers and feeders 4.50 @ 5.65; cows and heifers 2.70 @ 4.90; canners 1.50 @ 2.60; westerns 3.50 @ 5.40; Texans 4 @ 4.60. Hogs—Receipts 32,000; estimated for Thursday 35,000; market 5 @ lower; light 6.10 @ 6.35; rough 6.10 @ 6.20; mixed 6.20 @ 6.42 1-2; heavy 6.30 @ 6.42 1-2; pigs 5.15 @ 6.15. Sheep—Receipts 28,000; estimated for Thursday 16,000; market 10 @ lower; native sheep 2.25 @ 5.60; western sheep 2.50 @ 5.50; native lambs 4.60 @ 7.75; western lambs, 4.65 @ 7.50.

CLEVELAND.

Cleveland, Jan. 2.—Hogs—Lower. Receipts 50. Yorkers, mediums and heavies 6.45 @ 6.50; best pigs 6.50. Calves—Strong. Receipts light. Good to extra 8.50 @ 9; fair to good 7.50 @ 8; heavy and thin 5 @ 6. Sheep and lambs—Weak. Receipts 10. Good to extra lambs 7.50 @ 7.65. Cattle—Steady. Receipts light.

CHICAGO GRAIN.

Chicago, Jan. 2.—Wheat—1.8 @ 3-8c lower; May sold between 76 1-4 and 76 7-8, opening at 76 7-8 and closing at 76 3-4; July between 75 5-8 and 76 1-4, opening at 76 1-4 and closing at 76 1-4; No. 2 red winter 73 @ 73 1-2. Corn—Unchanged to 1-8c off; May sold between 43 3-8 and 43 5-8, opening at 43 3-8 and closing at 43 5-8; July between 43 7-8 and 44, opening at 44 and closing at 44 1-4; No. 3 yellow 39 1-2 @ 39 3-4. Oats—1-3 @ 1-2c higher; May sold between 35 7-8 and 36 1-4, opening at 35 7-8 and closing at 36 1-4; July between 33 1-8 and 33 5-8, opening at 33 1-4 and closing at 33 5-8. No. 2 white 35 1-2 @ 36. Provisions—Were unsettled. May products ranged: Pork 16 37 1-2 and 16 70; lard 9.35 and 9.57 1-2; ribs 8.22 1-2 and 9.05.

PITTSBURGH.

Pittsburgh, Pa., Jan. 2.—Cattle—Supply light; market steady; Choice 6 @ 6.25; prime 5.60 @ 5.85; good 5.25 @ 5.50; tidy butchers 4.65 @ 5.20; fair 4.20 @ 4.60; common, 3.50 @ 4; choice heifers 4.25 @ 4.50; common to fair heifers 2.50 @

OF COURSE IT IS

Isn't it rather foolish to allow a house to stand idle in this city when there is a real scarcity of desirable places, and renters are watching
